

In the highly-charged atmosphere of this unprecedented presidential campaign, Sinclair Broadcasting's decision to compel their stations to broadcast a defamatory anti-Kerry documentary just before the election is a travesty, a clear violation of the fairness principle, and an outrageous example of the abuse fostered by unfettered media consolidation.

Your responsibility to the citizens of the United States is to ensure that all broadcasters use the public airwaves responsibly and in compliance with the law. Sinclair is obligated by law to serve the public interest. When they violate the public trust, it is your obligation to enforce the law.

You must stop their outrageous, illegal campaign support for the Bush administration. Sinclair's actions demand that their broadcast license must not be renewed.
